

# Fragebogen Top-Klima-System

## Questionary Top-Climate-System

### Kontaktdaten / Contact Information

|                                     |                         |
|-------------------------------------|-------------------------|
| Name<br><i>Name</i>                 | Tel.<br><i>Tel.</i>     |
| Straße / Nr.<br><i>Street / Nr.</i> | Fax<br><i>Fax</i>       |
| PLZ / Ort<br><i>Postcode / City</i> | E-Mail<br><i>E-Mail</i> |
| Projekt<br><i>Project</i>           | Datum<br><i>Date</i>    |

### Stalldaten / House data

|                                                                    |   |                                                                 |           |
|--------------------------------------------------------------------|---|-----------------------------------------------------------------|-----------|
| Stalllänge<br><i>House length</i>                                  | m | Stallbreite<br><i>House width</i>                               | m         |
| Produktionsspezialisierung<br><i>Type of production</i>            |   | Anzahl der Tiere<br><i>Number of animals</i>                    |           |
| Anzahl der gleichen Abteile<br><i>Number of equal compartments</i> |   | Vorhandene Netzspannung<br><i>Existing power supply voltage</i> | V      Hz |

### Lüftungsdaten / Ventilation data

|                                         |                                                    |      |
|-----------------------------------------|----------------------------------------------------|------|
| Ablufttyp<br><i>Type of exhaust air</i> | Max. Gesamtablufrate<br><i>Max. total air rate</i> | m³/h |
| Zulufttyp<br><i>Type of air supply</i>  | Klimazone / Land<br><i>Climate area / Country</i>  |      |

### Einsatz des Systems / Operating range of the System

|                                                                                            |                                                                         |                                                                          |                                                                                                                  |
|--------------------------------------------------------------------------------------------|-------------------------------------------------------------------------|--------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------|
| Steuerung durch vorhandenen Klimacomputer?<br><i>Control by existing climate computer?</i> | <input type="checkbox"/> Ja / Yes<br><input type="checkbox"/> Nein / No | Einsatz Zudosierung geplant?<br><i>Admixture is planned?</i>             | <input type="checkbox"/> Ja / Yes<br><input type="checkbox"/> Nein / No                                          |
| System mit Druckentlastung?<br><i>System with pressure relief?</i>                         | <input type="checkbox"/> Ja / Yes<br><input type="checkbox"/> Nein / No | Einsatz zur Desinfektion geplant?<br><i>Disinfection use is planned?</i> | <input type="checkbox"/> Ja / Yes<br><input type="checkbox"/> Nein / No                                          |
|                                                                                            |                                                                         | Verschraubung:<br><i>Couplings:</i>                                      | <input type="checkbox"/> Schneidring<br><i>Cutting ring</i> <input type="checkbox"/> PressFix<br><i>PressFix</i> |

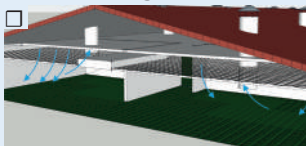

### Stallskizze / House sketch

Bitte die gewünschte Pumpenposition angeben: / Please specify the desired pump position:

Unterflurbelüftung  
*Underfloor ventilation*

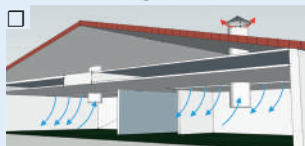

Doppeldecke  
*Double ceiling*

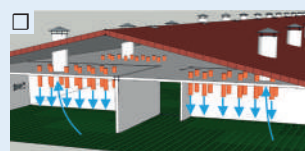

Zuluft über Wandventile / Traufklappen  
*Roof ventilation*

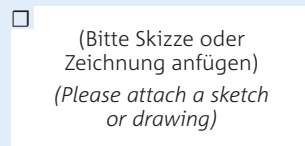

Schlitzdecke  
*Slotted ceiling*

Lüftung über Schnüffelrohr  
*Nose-level ventilation ducts*

Andere Ventilation  
*Other ventilation*
