LUBING TOUCH CONTROL FOR LUBING SYSTEM SOLUTIONS

LUBING TOUCH CONTROL

The LUBING Touch Controllers control key supply and maintenance functions in the poultry house. The intuitive touchscreen with clear pictograms enables easy operation and quick access to important functions. Various versions are available depending on the housing system and the LUBING system used.

VERSIONS

The LUBING Touch Controllers are offered in many versions. The designation of the version starting with LC is noted on the front foil.

Description	Item No.	Application in Top Climate Systems
LC-1	7740	1-house systems without sensors
	7740-IoT*	
LC-2	7741	2-house systems without sensors
LCS-1	7742	1-house systems with sensors
	7742-IoT*	
LCS-2	7743	2-house systems with sensors
LCM Vario	7745	Multi compartment control for max. 8 compartments for pump units with frequency converter
Extension box LCM/LCM Vario	7750	Extension for LCM and LCM Vario by 8 compartments (max. 4 extension boxes per controller)
LCMS Vario	7747	Multi compartment control for max. 2 compartments for pump units
Extension box LCMS Vario	7751	Extension for LCMS Vario by 2 compartments (max. 14 extension boxes per controller)

*These controllers are operated via the LUBING LC app.

These versions are designed for a wide voltage range of 90 to 264 V at 50/60 Hz. Depending on the version, the controller can be expanded with additional lines via CANbus and expansion boxes. Data logging and regular updates via SD card are optionally available.

➤ ADVANTAGES

- » Intuitive touchscreen with status messages and context-sensitive menu navigation.
- » Clearly structured operation for quick access to important functions.
- » Automated processes for supply and maintenance.
- » Integrated alarm functions to protect against critical conditions and operating errors.
- » Control of multiple lines and houses with one device.
- » Flexible expandability via CANbus and suitable expansion sets.
